About Company

PT Asterra Petro Works is a professional **drilling equipment rental company** supporting the drilling operational needs of Indonesia's energy industry. We rent and supply a wide range of high-quality drilling equipment that meets industry standards and performs reliably under demanding field conditions.

All equipment is selected through rigorous technical evaluation to ensure safety, efficiency, and consistent performance. We understand the requirements of drilling and workover operations and provide fit-for-purpose equipment solutions aligned with operational conditions.

Our team delivers responsive service, technical consultation, and ongoing support to help minimize downtime and ensure smooth project execution. Through our commitment to quality, integrity, and professionalism, PT Asterra Petro Works continues to build trust as a reliable partner in Indonesia's energy industry.

Vision

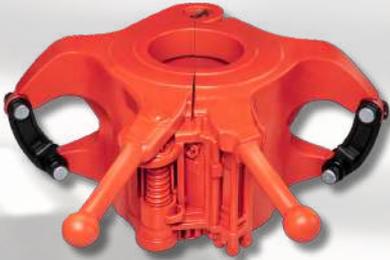

“ To become a leading and trusted drilling equipment rental company in Indonesia, contributing to the advancement of the energy industry through high-quality equipment, professional services, and a strong commitment to operational safety. ”

Mission

- To supply high-quality drilling equipment rentals that meet international industry standards and perform reliably under diverse field operating conditions.
- To provide responsive, solution-oriented services supported by technical expertise to ensure operational efficiency and smooth project execution.
- To build long-term partnerships through integrity, transparency, and professionalism in every engagement.
- To contribute to safer, more efficient, and more sustainable energy industry operations in Indonesia.
